School Accountability Report Card

Reported Using Data from the 2015-16 School Year

Published During 2016-17

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2016-17)

MISSION STATEMENT

Conejo Valley High School, a California Model Continuation High School, offers an outstanding alternative program for high school students in the Conejo Valley Unified School District. With strong support from the district's School Board, administration and comprehensive high schools, Conejo Valley High School is able to provide a varied curriculum to meet the needs of our students. The school and its staff are committed to giving students a place where they feel secure, providing students with hope, helping students to become resilient and assisting students to get on track for success.

The mission of Conejo Valley High School is to engage students in a safe and secure learning environment which emphasizes real world application, collaboration, innovation, self-direction, digital literacy, healthy living, social responsibility and global awareness.

SCHOOL DESCRIPTION

Conejo Valley High School is designed for students whose unique educational needs require more individualized programs. Our alternative school allows acceptance and appreciation of students with differing abilities, interests, motivations, and learning styles. These differences are addressed by small group instruction and personalized education programs which allow students the freedom to try new skills, make and correct mistakes and experience success. This personalized approach encourages the students to master a core of knowledge and develop positive self-images, thus leading to self-acceptance, healthy personal lives and becoming productive citizens.

Conejo Valley High School was opened in 1974 as the Alternative/Continuation School for the Conejo Valley Unified School District. It is one of five high schools in the District, which provide services to a student population of over 6,000.

Combining the population of students in our programs, the school has a capacity of 195 students. Direct instruction is utilized in most classes. We also have individualized instruction which can be computer or text based. Students are placed in the classroom settings which meet their individual needs. This personalized program allows students to learn at their own pace and ability level. Students earn standard or college preparatory levels of credit. Courses other than Physical Education are limited to 22 students, but the average class size is one teacher per 18 students. Conejo Valley High School is accredited by WASC and was awarded Model Continuation High School Status in 2015. The certificated staff includes two administrators, one counselor, ten regular education teachers, one special education teachers and one part-time teacher in our Career and Technical Education Program. We also have a part-time, fully credentialed math tutor for our EL (English Learner) population. The classified staff includes two secretaries, one custodian, one health clerk, and one Instructional Media Technician. We also have a part-time college and career center technician, an EL coordinator and a food-services coordinator.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2016-17)

Year and month in which data were collected: November 2016

All K-12 students have current standards-based textbooks in math, science and history/social science and English/Language Arts. With each curricular cycle established by the State of California, the Conejo Valley USD Board of Education adopts textbooks within the timeline provided. Standards-aligned books for grades 9-12 are approved locally. Textbooks in Grades K-8 are selected from lists of books and materials approved by the State Board of Education. Sufficient standards-based textbooks and instructional materials have been purchased for all students in English, Math, History/Social Science, Science, Health and Foreign Language. In addition, annually, sites receive specific science supplementary funds to be used for consumable laboratory expenses and/or equipment.

The process of selecting textbooks and materials involves the formation of a committee charged with the responsibility of reviewing state current standards and frameworks, analyzing student data, writing courses of study, as required, and selecting and maintaining current instructional materials. The goal of such district-wide committees, comprised of teachers and administrators representing all targeted grade levels, is to achieve high academic standards for all of our TK-12 students. Each major subject area, such as math, science, history/social science, foreign language and English/language arts, is reviewed and adopted under the guidance of the California Department of Education and State Board of Education. The committee submits its recommendations to the Board of Education for final approval. The recommendation to the Board includes the basic textbook materials as well as supplementary materials within the subject. CVUSD is currently working within the adoption process for Math and ELA at grades 6-12. On October 18, 2016, the CVUSD Board of Education approved a resolution for the 2016-2017 school year declaring that the Conejo Valley Unified School District has provided each pupil with sufficient standards-based textbooks and instructional materials consistent with the cycles and content of the curriculum frameworks.

School Facility Conditions and Planned Improvements (Most Recent Year)

Each Fall, all schools in the Conejo Valley Unified School District are inspected by a team which consists of all or many of the following personnel: Site Administrator, Executive Director of Maintenance, Planning and Technology, Director of Maintenance & Operations, Director of Planning, and the Assistant Superintendent. A facilities evaluation is completed documenting the condition of the school in a variety of areas, including the cleanliness of restrooms, condition of roofs, paving and walkways, HVAC systems, landscape maintenance, etc. Any condition observed that represents a concern to the health and safety of students and staff is annotated for immediate correction. Items noted which could improve the utility, appearance or safety of the school are recorded and evaluated for potential placement on the District's annual Major Projects List. The projects included on the final Major Projects List are based upon a priority assessment of all identified District school needs, and the funds available to address those needs. The final list is approved by the Board of Education in the Spring, with the majority of projects completed the following Summer.

The District has been fortunate to have strong support from the community. A recently passed \$197 million bond measure is currently in place to address safety and security, upgrade instructional technology and modernization of the facilities, including updating of science, math, and career prep labs. Projects are on-going and will continue for the next 10 years.

The District provides 1 full-time custodians at Conejo Valley High School School, and they follow District-defined cleaning standards and schedules to ensure that the school provides our students and staff with clean, healthy and attractive learning environments.

Conejo Valley Alternative High School was opened in 1960 on a 5.7 acre site and has a capacity of 400 students. The school has 16 classrooms, a multipurpose room, a library and an administration building. Adult restrooms were remodeled and four aging modular classroom buildings were replaced in 2009.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The “Proficient or Advanced” is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Career Technical Education Programs (School Year 2015-16)

The needs of students in Career Technical Education (CTE) programs are supported by administrators, counselors, the School-to-Career coordinators, teachers and the Student Study Team. The programs are voluntary and have a non-discriminatory recruitment and selection process. Teachers are provided with staff development, other resources, and time to develop instructional strategies that foster critical thinking, problem solving, leadership, and academic skills. Students receive support such as mentoring and tutoring. A high priority is also given to CTE programs, which have traditionally served at-risk students.

The District funds three full-time Career Education Coordinators at the comprehensive high schools and a part-time Career Education Coordinator at the continuation High School. One of their primary tasks is to increase our outreach to business, labor, and post-secondary education. In addition, information about local occupational needs is gathered from a variety of sources. District and school advisory panels include business partners, labor, post-secondary representation, teachers, counselors, and administrators. School-to-Career coordinators regularly attend Chamber of Commerce Education Committee meetings and the Area Coordinating Team (ACT) meetings. Labor Market Information for Ventura County is used to survey the fastest growing occupations for the period 2008-2018. All of this data and the Core Indicators generated for Carl Perkins reports are used by schools and the District to measure the effectiveness of their Career Technical Education programs and courses. The district also receives funding for our CTE pathways from the Carl Perkins grant and the California Career Pathways Trust grant.

Conejo Valley High School has two Career Technical Education pathways:

The Social Entrepreneurship pathway offers students the opportunity to learn the skills and competencies of enterprise in a socially conscious manner. Classes include: Social Awareness (Participant), 21st Century Marketing (Concentrator) and Virtual Entrepreneurship (Capstone). The goal is to connect students’ passions for helping others through projects and volunteering. Next students learn important business and marketing skills through the latest technologies. By the final class, students will have prepared a final business plan to be presented to a panel of industry experts. Currently, many of CVHS students work and use social media but have yet to do so in a venue that promotes their own social enterprise. This pathway is intended to lead to the creation of student small businesses with a desire to help improve their communities. Language Arts, math government and economics provide an abundance of germane assignments that relate to this pathway.

Cabinetmaking and Wood Products. The course sequence of: Wood1 (Participant), Wood Advanced (Concentrator) and Wood 2 (Capstone) take students from learning the basic skills of planning and using hand woodworking tools, to woodworking machines in Wood Advanced and then in Wood 2 the students work as individuals and together with teams to design and implement production projects that involve computer design, cost analysis, selection of materials , construction, marketing, and distribution of singular and mass production products. Students integrate other disciplines, including mathematics, English, science and visual arts into this course.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2016-17)

At Conejo Valley High School, parents are encouraged to participate in the School Site Council (SSC), District Advisory Council (DAC), English Learner Advisory Committee (ELAC), Job Shadowing, WASC self-studies and our Back to School Night in the. We also offer several parent information nights regarding college access, financial aide, parenting skills and pertinent community information as it relates to teens. These are available through the school and district. Parents are notified by phone and e-mail with Parent Link and our website is regularly updated. For further information contact the school at 498-6646 x 204.

School Safety Plan (School Year 2016-17)

Site specific District Disaster Preparedness Plans and School Safety Plans are developed, revised and updated each year through a collaborative process obtaining appropriate approvals. Safety plans address: a) child neglect and abuse reporting; b) disaster procedures; c) policies and procedures regarding dangerous students and bullying/harassment d) sexual harassment & nondiscrimination policies; e) dress code; f) safe ingress/egress; g) school rules related to discipline and safe schools. Likewise, all school sites routinely practice Fire, Earthquake and Lock Down drills throughout the school year. District policies and administrative regulations are reviewed and updated on a regular basis to remain present-day and consistent with current law.

A well-planned communication equipment system consisting of intra-district two-way radios and walkie-talkies is located at all sites for daily use and in preparation for possible emergency use. Moreover, local bond dollars support needed physical and safety upgrades at all school sites.

The District’s Human Resources department provides training on an ongoing basis to certificated and classified staff. Each year, new employees are offered CPR and First Aid Training through organizations such as the American Red Cross and American Lung Association. The District has also installed Automated External Defibrillators in nearly all facilities.

The District also has partnered with the City of Thousand Oaks, the Conejo Recreation and Park District and the Ventura County Sheriff’s & Fire Departments for coordinating response and resource allocations in major emergencies. Additionally, with the generous support of the City of Thousand Oaks each comprehensive high school enjoys the services of a full-time Student Resource Officer (TOPD).

Types of Services Funded (Fiscal Year 2015-16)

Per pupil expenditures include funds expended for all instructional services. These include transportation, food services, health services, counseling services / mental health services, instructional materials and maintenance. The Local Control Funding Formula provides the bulk of funding for nearly all programs with the exceptions of federal categorical allocations and state and local grants.

Categorical funding provides support for Special Education Services – (All Schools), Title I Services - PI transportation (school choice) and Alternative Support Services (Six elementary schools), Title IIA – Professional Development (All Schools) and Title III - English Language Learners / LEP and Immigrant (All Schools) and Perkins – Career Technology Education (High Schools). Community and parent support groups bolster many programs and services across the district. The Conejo Schools Foundation, PTA’s and Booster Clubs contribute significantly to activities such as performing arts, athletics, academic competitions, etc.

Conejo Valley Unified also receives additional financial support through grant funding such as: College Readiness Block Grant - Tobacco Use Prevention Education Program (TUPE) - (Middle and High schools) and Career Technology Education – Ventura County Innovates (CTE) – (Middle Schools & High Schools).

Professional Development (Most Recent Three Years)

The Conejo Valley Unified School District is committed to providing professional development activities for all teachers and administrators. Both groups continue to enhance the skills necessary to deliver effective instruction through the implementation of Common Core Standards and beyond. A robust professional development effort includes opportunities in researched-based instructional strategies, technological competencies, and Professional Learning Communities.

Professional development strategies such as workshops, institutes and academies, as well as job-embedded activities are related to College and Career Readiness, Smarter Balanced Assessments and other proficiencies required to meet the needs of all students. Professional development topics are aligned with District and school site needs identified through and outlined within the district and schools' LCAP goals. Professional development for high school faculty and staff members are also aligned with each school's WASC action plan.

The District also provides, at no cost to teachers, an induction program (New Teacher Induction) for first year and second year teachers, as well as both a voluntary and required Peer Assistance Review program.

The Ventura County Superintendent of Schools Office offers a professional development series that is specifically designed for district and site administrators. Administrators attend workshops in Common Core Standards, Multi-Tiered System of Supports, performance assessment, literacy intervention technology, supervision, evaluation, and leadership.

In addition to professional development activities offered to the District's teachers and administrators, classified employees receive training that is specific to their assignments.

The District is committed to providing professional development activities to every educator to improve the instructional process and enhance student achievement. The District provides all teachers with 18 hours per year of staff development related to curriculum, instructional technology, assessment, report cards, instructional strategies and using data to close the achievement gap.
