The Conejo Valley Unified School District strives to support all learners to be college and career ready. The responsible use of technology will empower students to maximize their full potential, as well as prepare them for their future. Technology shall be seamlessly integrated throughout the instructional program.

The Conejo Valley Unified School District shall provide access to a wide range of technology resources for staff and student use. Access to technology means that the teachers and students can utilize technology to collaborate, communicate, create, and support critical thinking whenever necessary. The District shall provide professional learning opportunities for teachers and staff.

The Conejo Valley Unified School District shall support technology through planned and measured means, including the establishment and maintenance of goals incorporated into the Local Control Accountability Plan supported by a thoughtful budget to ensure long term sustainability. This includes utilizing technology to provide communication and targeted outreach that informs the community of programs and opportunities that support positive student outcomes. The district shall maintain the bandwidth to support the school community.

The Conejo Valley Unified School District shall implement a process to evaluate pedagogy to ensure teachers and students have the ability to introduce new resources in order to keep pace with an ever-changing technology environment. The district shall work within its means to implement and support new resources within budgetary and staffing constraints.
CVUSD Technology Committee
2019-2020

The Technology Committee is responsible for creating and maintaining the District’s Technology Plan and curriculum. Over the last six years, Conejo Valley Unified School District has been engaged in a comprehensive strategic planning process, utilizing significant input from numerous stakeholder groups, district staff facilitated planning opportunities and discussion sessions.
