

GATE *at a Glance*

April 2019

CVUSD State of GATE Report

Some of our CVUSD 3rd – 5th graders are immersing themselves into exploratory Invention Convention projects, so I thought this would be the best month to focus on STEAM!

- Creating a STEAM Classroom...keep it relevant, meaningful, appropriate and accentuate the FUN!
 - The [steamportal](#) on education closet is a one-stop shop with everything from STEM presentations, STEM/STEAM lessons, resources and websites/Apps.
 - [6 steps](#) to creating a STEAM classroom
 - 25 STEAM [projects for kids](#)
 - [28 days](#) of STEM/STEAM activities
 - [12 technology in the classroom](#) STEAM projects
 - [“Full STEAM Ahead”](#) contains education resources and project ideas for teachers.

Feel free to join us in the University Center MPR on Thursday, April 25th from 6 – 7, where our inventors will share their creative ideas and out-of-the-box problem solving.

“Science is fun. Science is curiosity. Science is a process of investigating. It’s posing questions and coming up with a method. It’s delving in.”

— *Sally Ride*

GATE ON THE GO!

Community Calendar...

The following language must preface any advertising of community or parent generated events:

“This activity is not endorsed by or affiliated with Conejo Valley Unified School District.”
