The district's educational programs shall also promote students’ understanding of sexuality as a normal part of human development and the development of healthy attitudes and behaviors concerning adolescent growth and development, body image, gender identity, gender expression, sexual orientation, relationships, marriage, and family.

SPECIAL EDUCATION

EC §56306, EC §56329, EC §56380, EC §56506, EC §56345(a)(8), IDEA & CAC 3125

Special Education Programs

Federal law requires that a free and appropriate education (FAPE) shall be offered in the least restrictive environment (LRE) to qualified pupils with disabilities, including those who are homeless or wards of the court, ages 3 through 21 years; and early intervention services for “at-risk infants and toddlers” under the age of 3. This right applies to students eligible for Special Education services as defined under the Individuals with Disabilities Education Act (IDEA). Through the district’s Student Success Team (“SST”) process, and other procedures (implementation and monitoring of interventions; consideration of a student’s education records), including the processing of referrals from the community, a continuous effort is made to locate and identify individuals who might qualify for special education services. Although the district may consider and attempt general education interventions prior to referring a student for special education evaluation or services, it may also delay a necessary referral to first attempt general education interventions. Upon suspecting that a student has a disability and may need special education and related services, district staff will immediately refer the student for consideration of eligibility.

Special Education Programs

The law also provides that parents may initiate a request to have their child assessed to determine eligibility for Special Education and/or related services. The request shall be in writing and may be submitted to the District’s Special Education Office, school principal or their designee. Further, the parent(s) 1) may expect their request to be written in clear and understandable language; 2) will be asked to give written consent before any assessments are conducted; 3) is entitled to receive a copy of the assessment results and the documentation of determination of eligibility upon request; 4) shall participate in the individualized education program (IEP) team meeting for their child and be provided with reasonable accommodations and the reasons for them prior to the IEP meeting; and 5) will give written consent prior to the student receiving services. The parent also has the right to electronically record the proceedings of IEP meetings and to observe the pupil in the classroom, as specified by board policy.

The district’s process for identifying and evaluating students with disabilities who may be your child’s education and related services includes, but is not limited to, a review of the student’s school records; effectiveness of general education and/or SST interventions, as applicable; information provided by a student’s teacher(s), other professionals, and the parent/guardian, as appropriate; and consideration of the student’s needs.

If the pupil is identified as eligible for special education and related services, then a meeting will be held annually to review their progress. Further and more specific information about parent rights, due process, specific procedures, and the assessment plan are available under a separate document, which may be obtained from the District’s Department of Special Education.

Special Education Students Reaching Age 18

Beginning at least one year prior to a special education pupil reaching the age of 18, they are to be informed of their rights, which will be transferred to them upon reaching the age of 18. This information is also contained within the individualized education program (IEP).

Special Education Complaints

The parent may file a complaint with the State Department of Public Instruction if they feel there has been a violation of the Special Education Laws. The complaint may be filed with Erika Johnson, Director of Special Education, Preschool/Elementary, or Dawn Thomas, Director of Special Education Secondary at (805) 497-9511 Ext. 3330.

Special Education – Use of Assistive Technology

The Conejo Valley Unified School District allows home and community use of assistive technology devices as part of their IEP FAPE offer. Students may continue to use while at distributing school and for up to a maximum of two months or until a replacement or comparable device is obtained in new setting. Not every IEP will have an AT device as part of the IEP team offering, but if it is there, it must remain in possession so that the student does not have a lapse in educational access to such device.

Child Find Systems

The district is a member of the Ventura County Special Education Local Plan Area which has established written procedures regarding child find systems including children with disabilities who are migrant, homeless, or wards of the state, and children with disabilities attending private schools. Policies and procedures include written notification to all parents of their rights regarding identification, referral, assessment, instructional planning, implementation, review, and procedures for initiating referral for assessment.

ATTENDANCE

ABSENCES FOR CONFIDENTIAL MEDICAL SERVICES
EC §46010.1
“Commencing in the fall of the 1986–87 academic year, the governing board of each school district shall, each academic year, notify pupils in grades 7 to 12, inclusive, and the parents or guardians of all pupils enrolled in the district, that school authorities may excuse any pupil from the school for the purpose of obtaining confidential medical services without the consent of the pupil’s parent or guardian.

AVOIDING ABSENCES, EXCUSED ABSENCES, TARDINESS, TRUANCY
EC §46014, EC §48205, EC §48260, EC §48260(a), EC §48262, EC §48263, EC §48263.6, EC §48264, EC §48267, EC §48268, EC §48269, EC §60901; WIC 236, 601, 601.3, 551.5, 553.5, 564; CVUSD Board Policy 5113 & CVUSD Administrative Regulation 5113

Avoiding Absences
The Conejo Valley Unified School District urges parents to make sure their children attend school regularly and to schedule medical and other appointments after school or during school holidays. The district also asks that travel or other absences be avoided during the time school is in session. The higher the district’s daily attendance rate, the more a student will learn and the greater the amount of funding that the district will receive from the state for classroom instruction and academic programs.

The school calendar is designed to minimize problems for families which plan vacations around traditional holiday periods, and thereby minimize student absences. Following an absence, a student is required to bring a written excuse from home when returning to school. Illnesses, and doctor and dental appointments are considered excused absences. Absences without a written excuse are recorded as unexcused.

Chronic Absenteeism
EC §60901
A student is considered a chronic absentee when they are absent on 10% or more of the school days in one school year, from the date of enrollment to the current date. Chronic absenteeism includes all absences – excused and unexcused – and is an important measure because excessive absences negatively impact academic achievement and student engagement.

Excused Absences
EC §46014, EC §48205
Parents or legal guardians, unless exempted, are required to enroll their children between the ages of 6 and 18 in the school district in which they reside. They are compelled to ensure that the minor is in school regularly and on time each day. Parents may be required to appear before the School Attendance Review Board (SARB) and subsequently be referred to the District Attorney for legal action when attendance, tardiness, and/or behavior problems occur. For additional information regarding truancy, review the attendance section on the District’s website located at conejousd.org.

Notwithstanding Section 48200, a pupil shall be excused from school for any of the following reasons:
1. Personal illness, including absence for the benefit of the student’s mental or behavioral health
2. Quarantine under the direction of a county or city health officer
3. Medical, dental, optometrical, or chiropractic appointment
4. 5. Jury duty in the manner provided by law
6. Illness or medical appointment of a child to whom the student is the custodial parent

Such absence shall be granted for a period of time to be determined at the discretion of the Superintendent or designee
10. Attendance at the student’s naturalization ceremony to become a United States citizen
11. Participation in a cultural ceremony or event which relates to the habits, practices, beliefs, and traditions of a certain group of people.
12. Participation in religious exercises or to receive moral and religious instruction at the student’s place of worship or other suitable place away from school. Absence for student participation in religious exercises or instruction shall not be considered an absence for the purpose of computing average daily attendance if the student attends at least the minimum school day as specified in AR 6112 – School Day, and is not excused from school for this purpose on more than four days per school month.
13. Work in the entertainment or allied industry. Work for a student who holds a work permit authorizing work in the entertainment or allied industries for a period of not more than five consecutive days. For this purpose, student absence shall be excused for a maximum of and up to five absences per school year.
14. Participation with a nonprofit performing arts organization in a performance for a public school audience. A student may be excused up to five such absences per school year provided that the student’s parent/guardian provides a written explanation of such absence to the school.
15. Other reasons authorized at the discretion of the principal or designee based on the student’s specific circumstances.

For the purpose of the absences described above, immediate family means the student’s parent/guardian, brother or sister, grandparent, or any other relative living in the student’s household.

A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefor. The pupil shall also be referred immediately to the School Attendance Review Board (SARB).

Arrest of Truants/School Attendance Review Boards: The school attendance supervisor, administrator or designee, a peace officer, or probation officer may arrest or assume temporary custody during school hours, of any minor who is found away from their home and who is absent from school without valid excuse within the county, city or school district. Interdistrict Enrollment/Transfer Requests

Parents/guardians of students living outside the boundary of Conejo Valley Unified School District may apply for an Interdistrict Transfer. The parent or legal guardian of a pupil may seek release from the home district to attend a school in any other school district. It is expected that pupils will attend the school district serving the attendance zone in which they reside. However, Districts may enter into an agreement for a period of up to five years which specifies the terms and conditions under which pupil transfers are permitted. Therefore, the parent or guardian may request and the Superintendent may grant the transfer of their child to a different school district for any of the following reasons:

1. To meet the child care needs of the student only as long as the student’s child care provider remains within district boundaries
2. To meet the student’s special mental or physical health needs as certified by a physician, school psychologist, or other appropriate school personnel
3. When the student has a sibling attending school in the receiving district, to avoid splitting the family’s attendance
4. To allow the student to complete a school year when their parents/guardians have moved out of the district during that year
5. To allow the student to remain with a class graduating that year from an elementary, middle, or senior high school
6. To allow a high school junior to attend the same school they attended as a junior, even if their family moved out of the district during the junior year
7. When the parent/guardian provides written evidence that the family will be moving into the district in the immediate future and would like the student to start the year in the district
8. When the student will be living out of the district for one year or less
9. When recommended by the school attendance review board or by county child welfare, probation, or social service agency staff in documented cases of serious home or community problems which make it inadvisable for the student to attend the school district
10. When there is valid interest in a particular educational program not offered in the district of residence
11. To provide a change in school environment for reasons of personal and social adjustment

The parent will be notified of the acceptance or rejection of the transfer request in writing. The permit, if granted, is valid for up to five years (except less when changing between school levels, i.e., elementary to middle and middle to high school); while the conditions stated are maintained; and as long as the pupil’s attendance, behavior and academic performance are satisfactory to the school of attendance. Thus, the parent/guardian will not have to reapply for an interdistrict transfer and the pupil will be allowed to continue to attend the school in which they are enrolled. Pupils who are entering grade 11 or 12 in the subsequent school year shall not have their permits renewed. Failure to adhere to the terms/conditions set forth may result in a revocation of the permit anytime while the permit is still in effect.

Priority for interdistrict attendance shall be given to a student who has been determined, through an investigation by either the district of residence or district of proposed enrollment, to be a victim of an act of bullying, as defined in Education Code 48900(r), committed by a student of the district of residence.

Until the district is at maximum capacity, the district shall accept any student whose interdistrict transfer application is based on being the victim of an act of bullying or a child in foster care or emancipated guardian. The parent/guardian shall ensure that such students are admitted through an unbiased process that prohibits an inquiry into or evaluation or consideration of whether or not a student should be enrolled based on academic or athletic performance, physical condition, proficiency in English, family income, or any of the individual characteristics set forth in Education Code 220, including, but not limited to, race or ethnicity, gender, gender identity, gender expression, and immigration status.

Requests are based on District enrollment and impacted programs. Preferences will be given to pupils whose parents are enlisted in the military. Parents/guardians should contact the District’s Student Support Services Department at (805) 497-9511 Ext 3320 for further information.

Intradistrict Enrollment/Transfer Requests

It is expected that students will attend the school serving the attendance zone in which they reside. However, parents/guardians residing in the district may apply for a different school within the district through the District School of Choice process. School of Choice application requests are based on enrollment and staffing ratios. Parents of high school athletes should check on CIF sports eligibility rules before pursuing open enrollment. Transportation to any other school is the responsibility of the parent. Contact the school office for further information.

Involuntary Transfer

A student may be transferred to another district school if they are convicted of a violent felony, as defined in Penal Code 667.5(e), or a misdemeanor listed in Penal Code 28905 and is enrolled at the same school as the victim of the crime for which they were convicted.

Before transferring such a student, the Superintendent or designee shall attempt to resolve the conflict using restorative justice, counseling, or other such services. They shall also notify the student and their parents/guardians of the right to request a meeting with the principal or designee.

Participation of the victim in any conflict resolution program shall be voluntary, and they shall not be subjected to any disciplinary action for their refusal to participate in conflict resolution.

The Board shall deliberate in closed session to maintain the confidentiality of student information, unless the parent/guardian or adult student submits a written request that the matter be addressed in open session and doing so would not violate the privacy rights of any other student. The Board’s decision shall be final.

Persistently Dangerous Schools

The Conejo Valley USD Governing Board has adopted a policy stating that students who attend a persistently dangerous school must be allowed to attend a safe public school.

Residency Requirements

A minor between the ages of 6 and 18 years is subject to compulsory education and, unless exempted, must enroll in school in the school district in which the residence of either the parent or guardian is located. The parents may enroll their student in school regardless of immigration status. School officials are prohibited from collecting information or documents regarding citizenship or immigration status of students or their family members.

A pupil may alternatively comply with the residency requirements for school attendance in a school district if they or she is any of the following: placed in a foster home or licensed children’s institution within the boundaries of the school district pursuant to a commitment of placement under the Welfare and Institutions Code; a pupil who is a foster child who remains in their school of origin; an emancipated pupil who resides within the boundaries of the school district; a pupil who lives in the home of a caregiving adult that is located within the boundaries of the school district; or a pupil residing in a state hospital located within the boundaries of the school district.

A school district shall accept applications by electronic means for enrollment including enrollment in a specific school or program within the school district, and course registration for military dependents. The parent shall provide proof of residence within 10 days after the published arrival date provided on official documentation related to their military move: temporary on-base billeting facility, purchased or leased home on or off post, or federal government or public-private venture off-base military housing.

A school district may also deem a pupil as having complied with the residency requirements for school attendance in the school district if one or both of the parents or legal guardians of the pupil are physically employed within the boundaries of the school district for a minimum of 10 hours during the school week. To consider a student for acceptance under this provision, the parent/guardian must follow the District’s procedures which include the completion of the required request form and verification of employment within the district’s boundaries. The request may be granted if space is available at the school nearest the location of employment and excess costs to educate the child will not be incurred.

Residency is established when a pupil’s parent or legal guardian resides outside of the boundaries of that school district but is employed and lives with the pupil at the
place of their employment within the boundaries of the school district for a minimum of three days during the school week.

Residency Investigations

When the Superintendent or designee reasonably believes that a student's parent/guardian has provided false or unreliable evidence of residency, they may make reasonable efforts to determine that the student meets district residency requirements. An investigation may be initiated when the Superintendent or designee is able to identify specific, articulable facts supporting the belief that the parent/guardian has provided false or unreliable evidence of residency. The Superintendent or designee may assign a trained district employee to conduct the investigation. The investigation may include the examination of records, including public records, and/or interviews of persons who may have knowledge of the student's residency.

If necessary, the Superintendent or designee may employ the services of a private investigator to conduct the investigation. Before hiring a private investigator, the Superintendent or designee shall make other reasonable efforts to determine whether the student resides in the district.

The investigation shall not include the surreptitious collection of photorographic or videographic images of persons or places subject to the investigation. However, the use of technology is not prohibited if done in open and public view.

Any employee or contractor engaged in the investigation shall truthfully identify himself/herself as an investigator to individuals contacted or interviewed during the course of the investigation.

EC §49475

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. A school district that elects to offer athletic programs must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity. The athlete may not return to that activity until he or she is evaluated by, and receives written clearance from, a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete’s parent or guardian before the athlete’s initiating practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

CONTROLLED SUBSTANCES: OPIOIDS

EC §49476

The athletic departments of the Conejo Valley Unified School District will provide facts regarding the risks and side effects of opioid use each school year to athletes. Parents and student athletes must sign acknowledgement of receipt of the document annually.

ENTRANCE HEALTH SCREENING

HSC §124085, HSC §124100, HSC §124105 & CVUSD Administrative Regulation 5141.32

The district requires a physical examination prior to entering transitional or regular kindergarten. The State of California requires a physical exam 18 months before entering first grade. If the physical examination is done after March 1st of the year the student enters transitional/regular kindergarten, it will meet both requirements. If it is before March 1st of that year, another physical will be required prior to first grade.
ERIC PAREDES SUDDEN CARDIAC ARREST PREVENTION ACT
SB 1375
The senate bill requires a pupil in any public school, including a charter school, or private school that elects to conduct athletic activities, and the pupil’s parent or guardian, to sign and return an acknowledgement of receipt of an information sheet on sudden cardiac arrest symptoms and warning signs each school year before the pupil participates in an athletic activity.

IMMUNIZATIONS
HSC §120325, HSC §120335, HSC §120338, HSC §120365, HSC §120370, HSC §120375 & CVUSD Board Policy 5141.31
Students must be immunized against certain communicable diseases. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school district shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in school age children. The district may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student who parents have consented in writing.
Beginning January 1, 2016, parents of students in any school will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.
Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.
A student not fully immunized may be temporarily excluded from a school or other institution when that child has been exposed to a specified disease and whose documented proof of immunization status does not show proof of immunization against one of the communicable diseases described above.
The Superintendent or designee shall not unconditionally admit any student to a district elementary or secondary school, preschool, or child care and development program for the first time nor, after July 1, 2016, admit or advance any student to grade 7 unless the student has been fully immunized. The student shall present documentation of full immunization, in accordance with the age/grade and dose required by the California Department of Public Health (CDPH), against the following diseases:
- Measles, mumps, and rubella (MMR)
- Diphtheria, tetanus, and pertussis (whooping cough) (DTP, DTAp, or Tdap)
- Poliomyelitis (polio)
- Hepatitis A
- Hepatitis B
- Varicella (chickenpox)
- Haemophilus influenza type b ( Hib meningitis)
- Any other disease designated by the CDPH

TOBACCO FREE CAMPUS
HSC §10440, HSC §104495 & CVUSD Board Policy 5131.62
The Board prohibits smoking and/or the use of tobacco products at any time in district-owned or leased buildings, on district property, in district vehicles, and within 250 feet of a youth sports event. These prohibitions apply to all employees, students, and visitors at any school-sponsored instructional program, activity, or athletic event held on or off district property. Any written joint use agreement governing community use of district facilities or grounds shall include notice of the district’s tobacco-free schools policy and consequences for violations of the policy.

Smoking means inhaling, exhaling, burning, or carrying of any lighted or heated cigar, cigarette, pipe, tobacco, or plant product intended for inhalation, whether natural or synthetic, in any manner or form, and includes the use of an electronic smoking device that creates aerosol or vapor or of any oral smoking device for the purpose of circumventing the prohibition of smoking.

TYPE 1 DIABETES INFORMATION
EC §49452.6
On and after January 1, 2023, the governing board of a school district, county board of education, and governing body of a charter school shall make the Type I Diabetes informational materials accessible to the parent or guardian of a pupil when the pupil is first enrolled in elementary school, or with the information provided pursuant to Section 48980. Information provided to parents and guardians pursuant to this section may include, but shall not be limited to, all of the following:
The Description of Type I Diabetes: If you have Type I Diabetes, your pancreas does not make insulin or makes very little insulin. Insulin helps blood sugar enter the cells in your body for use as energy. Without insulin, blood sugar cannot get into cells and builds up in the bloodstream. High blood sugar is damaging to the body and causes many of the symptoms and complications of Diabetes. Type I Diabetes was once called insulin-dependent or juvenile diabetes. It usually develops in children, teens, and young adults, but it can happen at any age. Type I Diabetes is less common than Type 2—about 5-10% of people with diabetes have Type I. (CDC)

Risk Factors, Symptoms and Warning Signs associated with Type I Diabetes: Type I Diabetes is thought to be caused by an immune reaction (the body attacks itself by mistake). Risk factors for Type I Diabetes are not as clear as for prediabetes and Type 2 Diabetes. Known risk factors include: Family history (having a parent, brother, or sister with type 1 diabetes) or age. Type I Diabetes can happen at any age, but it usually develops in children, teens, or young adults. If you have any of the following diabetes symptoms, see your doctor about getting your blood sugar tested may be: Frequent urination (often at night); thirst; loss of weight without trying; hunger or blurry vision; numbness or tingling of hands or feet; extreme fatigue; very dry skin; have sores that heal slowly and may have more infections than usual. (CDC) It can take months or years before symptoms of Type I Diabetes are noticed. Type I Diabetes symptoms can develop in just a few weeks or months. Once symptoms appear, they can be severe. Some Type I Diabetes symptoms are similar to symptoms of other health conditions. (ADA)

Type I Diabetes Health Screening Process: A simple blood test will let you know if you have diabetes. If your child is screened at a health fair or pharmacy, follow up with their healthcare provider. If your child’s healthcare provider thinks you have Type I Diabetes, your blood may also be tested for autoantibodies. These substances indicate your body is attacking itself and are often found with Type I Diabetes but not with Type 2. Ketones may be present in their urine or blood. Ketones are produced when your body burns fat for energy. Having ketones in their urine or blood indicates that they have Type I Diabetes instead of Type 2. (ADA)

Following a Type I Diabetes diagnosis, parents or guardians should consult with the student’s primary healthcare provider to develop an appropriate treatment plan, which may include consultation with and examination by a specialty care provider, including, but not limited to, a properly qualified endocrinologist. TYPE 2 DIABETES INFORMATION

EC §49452.7. Pursuant to California Education Code Section 49452.7, this type 2 diabetes information is for local educational agencies to provide to parents and guardians of incoming seventh grade students.

The California Department of Education developed this type 2 diabetes information in collaboration with the California Department of Public Health, American Diabetes Association, California School Nurses Organization, and Children’s Hospital of Orange County.

Type 2 diabetes is the most common form of diabetes in adults.

• Until a few years ago, type 2 diabetes was rare in children, but it is becoming more common, especially for overweight teens.
• According to the U.S. Centers for Disease Control and Prevention (CDC), one in three American children born after 2000 will develop type 2 diabetes in their lifetime.

Type 2 diabetes affects the way the body is able to use sugar (glucose) for energy.
• The body turns the carbohydrates in food into glucose, the basic fuel for the body’s cells.
• The pancreas makes insulin, a hormone that moves glucose from the blood to the cells.
• In type 2 diabetes, the body’s cells resist the effects of insulin, and blood glucose levels rise.
• Over time, glucose reaches dangerously high levels in the blood, which is called hyperglycemia.
• Hyperglycemia can lead to health problems like heart disease, blindness, and kidney failure.

Risk Factors Associated with Type 2 Diabetes
Risk Factors

Researchers do not completely understand why some people develop type 2 diabetes and others do not; however, the following risk factors are associated with an increased risk of type 2 diabetes in children:
• Being overweight. The single greatest risk factor for type 2 diabetes in children is excess weight. In the U.S., almost one out of every five children is overweight. The chances are more than double that an overweight child will develop diabetes.
• Family history of diabetes. Many affected children and youth have at least one parent with diabetes or have a significant family history of the disease.
• Inactivity. Being inactive further reduces the body’s ability to respond to insulin.
• Specific racial/ethnic groups. Native Americans, African Americans, Hispanics/Latinos, or Asian/Pacific Islanders are more prone than other ethnic groups to develop type 2 diabetes.

• Puberty. Young people in puberty are more likely to develop type 2 diabetes than younger children, probably because of normal rises in hormone levels that can cause insulin resistance during this stage of rapid growth and physical development.

Warning Signs and Symptoms Associated with Type 2 Diabetes
Warning signs and symptoms of type 2 diabetes in children develop slowly, and initially there may be no symptoms. However, not everyone with insulin resistance or type 2 diabetes develops these warning signs, and not everyone who has these symptoms necessarily has type 2 diabetes.
• Increased hunger, even after eating
• Unexplained weight loss
• Increased thirst, dry mouth, and frequent urination
• Feeling very tired
• Blurred vision
• Slow healing of sores or cuts
• Dark velvety or ridged patches of skin, especially on the back of the neck or under the arms
• Irregular periods, no periods, and/or excess facial and body hair growth in girls
• High blood pressure or abnormal blood fats levels

Type 2 Diabetes Prevention Methods and Treatments
Healthy lifestyle choices can help prevent and treat type 2 diabetes. Even with a family history of diabetes, eating healthy foods in the correct amounts and exercising regularly can help children achieve or maintain a normal weight and normal blood glucose levels.
• Eat healthy foods. Make wise food choices. Eat foods low in fat and calories.
• Get more physical activity. Increase physical activity to at least 60 minutes every day, found to be associated with many health benefits.
• Take medication. If diet and exercise are not enough to control the disease, it may be necessary to treat type 2 diabetes with medication.

The first step in treating type 2 diabetes is to visit a doctor. A doctor can determine if a child is overweight based on the child’s age, weight, and height. A doctor can also request tests of a child’s blood to see if the child has diabetes or prediabetes (a condition which may lead to type 2 diabetes). There are different screening tests that are available through a health practitioner.

Type 2 diabetes in children is a preventable/treatable disease and the guidance provided in this information sheet is intended to raise awareness about this disease. Contact your student’s school nurse, school administrator, or health care provider if you have questions.

The Conejo Valley Unified School District (CVUSD) Board of Education recognizes the link between student health and learning, and desires to provide a comprehensive program promoting healthy eating and physical activity for district students. The superintendent or designee shall build a coordinated school health system that supports and reinforces health literacy. This includes, but is not limited to: health education, physical education and activity, health services, nutrition services, psychological and counseling services, health promotion for staff, a socially and emotionally safe and healthy school environment, and parent/guardian and community involvement.

SUICIDE PREVENTION

EC §215, CVUSD Board Policy 5141.52 & CVUSD Administrative Regulation 5141.52
The Governing Board recognizes that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. To attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall build measures and strategies for suicide prevention, intervention, and “postvention” defined as “counseling and other social care given after the experience of a traumatic event, especially to those directly affected by a suicide.”

In developing measures and strategies for use by the district, the Superintendent or designee may consult with school health professionals, school counselors, school psychologists, school social workers, administrators, other staff, parents/guardians, students, local health agencies, mental health professionals, and community organizations.

Such measures and strategies shall include, but are not limited to:
1. Staff development on suicide awareness and prevention for teachers, school counselors, administrators including principals, and other district employees who interact with students in all grades
2. Instruction to students in problem-solving and coping skills to promote students’ mental, emotional, and social health and well-being, as well as instruction in recognizing and appropriately responding to warning signs of suicidal intent in others
3. Methods for promoting a positive school climate that enhances students’ feelings of connectedness with the school and that is characterized by caring staff and harmonious interrelationships among students
4. The provision of information to parents/guardians regarding risk factors and warning signs of suicide, the severity of the youth suicide problem, the district’s suicide prevention curriculum, basic steps for helping suicidal youth, and/or school and community resources that can help youth in crisis
5. Encouragement for students to notify appropriate school personnel or other adults when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

6. Crisis intervention procedures for addressing suicide threats or attempts.

7. Counseling and other postvention strategies for helping students, staff, and others cope in the aftermath of a student's suicide.

Prevention and Instruction

Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with the school and is characterized by caring staff and harmonious interrelationships among students.

The district's health education program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and self-esteem. Suicide prevention instruction shall be incorporated into the health education curriculum in the secondary years. Such instruction shall be aligned with state content standards and be designed to help students analyze signs of depression and self-destructive behaviors, including potential suicide, and to identify suicide prevention strategies.

The Superintendent or designee may offer parents/guardians education or information which describes the severity of the youth suicide problem, the district's suicide prevention curriculum, risk factors and warning signs of suicide, basic steps for helping suicidal youth, and/or school and community resources that can help youth in crisis.

Staff Development

1. Research identifying risk factors, such as previous suicide attempt(s), history of depression or mental illness, substance abuse problems, family history of suicide or violence, feelings of isolation, interpersonal conflicts, a recent severe stressor or loss, family instability, and other factors.

2. Warning signs that may indicate suicidal intentions, including changes in students' appearance, personality, or behavior.

3. Research-based instructional strategies for teaching the suicide prevention curriculum and promoting mental and emotional health.

4. School and community resources and services.

5. District procedures for intervening when a student attempts, threatens, or discloses the desire to commit suicide.

Intervention

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the principal or school counselor. The principal or counselor shall then notify the student's parents/guardians as soon as possible and may refer the student to mental health resources in the school or community.

Students shall be encouraged to notify a teacher, principal, counselor, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions.

The Superintendent or designee shall establish crisis intervention procedures to ensure student safety and appropriate communications in the event that a suicide occurs or an attempt is made on campus or at a school-sponsored activity.

Section 17612 of this act reads as follows: "The school district designee shall annually provide to all staff and parents or guardians of pupils enrolled at a school site a written notification of the name of all pesticide products expected to be applied at the school facility during the upcoming year."

Please see the school district's list of Products we expect to use at our sites for the 2022-2023 school year listed below.

Section 17612, Part 1, also reads that the school district designee shall provide the opportunity for recipients to register with the school district if they wish to receive notification of individual pesticide applications at the school facility. Persons who register for such notification shall be notified of individual pesticide applications at least 72 hours prior to the application.

It is the goal of the Conejo Valley Unified School District to use the least toxic methods of pest control at the lowest effective dose through our Integrated Pest Management Program (IPM). A copy of the Conejo Valley Unified School District's IPM policy statement is stated below. If further information is desired, please contact via email:

jdonald@conejousd.org or drcrand@conejousd.org.

INTEGRATED PEST MANAGEMENT POLICY (IPM) STATEMENT

The Conejo Valley Unified School District initiated an IPM Program in September of 1988. Since the initiation of the IPM Program, it has been the intent of the CVUSD to continue to utilize IPM principles to manage pest populations adequately. The choice of using a pesticide will be based on a review of all other available options and a determination that these options are unacceptable or are infeasible, alone or in combination. Cost or staffing considerations alone will not be adequate justification for use of chemical control agents. Strategies for managing pest populations will also be influenced by the pest species and the degree to which that population poses a threat to people, property, or the environment. The full range of alternatives, including no action, will be considered.

When it is determined that a pesticide must be used in order to prevent pest levels from exceeding action thresholds, the least hazardous material will be chosen and applied at the lowest possible effective dose. Our Rodent Control Leadworker and Facility Supervisor-Grounds are licensed and certified "Qualified Pesticide Applicators". Both are required to attend continuing education classes for pest management.

Listed below are the names of all pesticide and/or herbicide products that Conejo Valley Unified School District's Maintenance & Grounds Department may apply at a school facility. Further information may be found at this website address:

http://www.cdpr.ca.gov
In accordance with District policy, state law, and applied solely by the District IPM Committee, no pesticide or herbicide may be applied by any person at any time anywhere in the district, including gardens, sports fields, or administrative sites unless it has been specifically approved and authorized in writing by the District IPM Committee and the Facilities IPM Coordinator. Any approved application will be in accordance with District policy, state law, and applied solely by the CVUSD IPM Technician. Unauthorized spraying could lead to a facility being closed for an extended period of time.

**PUPIL SAFETY: SWIMMING POOLS – ADULT PRESENCE – CPR – ALEX’S LAW**

All school personnel who witness an act of discrimination, harassment, intimidation, or bullying must take immediate steps to intervene when safe to do so. Any student who engages in acts of discrimination, harassment, violence, intimidation, or bullying related to school activity or school attendance occurring within a school of the school district may be subject to disciplinary action up to and including expulsion. Instruction also includes responsibilities of passengers seated next to an emergency exit. These regulations related to student conduct on buses, bus driver authority, and the suspension of riding privileges shall be made available to parents/guardians, students, and other interested parties.

**SCHOOL SAFETY: BULLYING**

EC §234.4 & EC §32283.5
The Governing Board recognizes the harmful effects of bullying on student well-being, student learning and school attendance and desires to provide a safe school environment that protects students from physical and emotional harm. No individual or group of students shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process. If you or your child should experience any bullying on campus, at school events, or on the way to or from school, please contact District’s Instructional Services Department at (805) 497-9511.

**SECURE HOME FIREARM STORAGE**

CVUSD Resolution #1920-32
CVUSD schools are required to comply with California Education Code Sections 32280-32290, which mandate the preparation of school safety plans addressing violence prevention, emergency preparedness, traffic safety and crisis response. Lawmakers, community members, non-profit organizations, and local leaders nationwide are working together to implement public awareness campaigns which encourage secure gun storage practices and highlight the public safety risk of unsecured guns. Evidence strongly suggests that secure firearm storage is an essential component to any effective strategy to keep school and students safe. Research shows that secure firearm storage practices are associated with up to an 84 percent reduction in the risk of self-inflicted and unintentional firearm injuries among children and teens. The U.S. Secret Service National Threat Assessment Center recommends the importance of appropriate storage of weapons because many school attackers used firearms acquired from their homes. The Conejo Valley Unified School District Board of Trustees and the Superintendent will continue to
work with local law enforcement agencies, health agencies, and non-profits to inform District parents about secure storage of firearms in their homes.

**STUDENT CONDUCT & DISCIPLINE**

**DRESS CODE**

CVUSD Board Policy 5132 & CVUSD Administrative Regulation 5132

Conejo Valley Unified School District’s student dress code supports equitable educational access and is written in a manner that does not reinforce stereotypes and that does not facilitate marginalization or discrimination oppression of any group based on race, sex, gender identity, gender expression, sexual orientation, ethnicity, religion, cultural observance, household income or body type/size. It also creates an environment for students to feel comfortable with themselves while learning in a safe and respectful academic environment.

District rules pertaining to student attire shall be included in student handbooks, may be posted in school offices and classrooms, and may be periodically reviewed with all students as necessary.

School administrators, teachers, and other staff shall be notified of appropriate and equitable enforcement of the dress code.

When practical, students shall not be directed to correct a dress code violation during instructional time or in front of other students.

Families (students and parents/guardians) should be notified of the dress code annually, or whenever the dress code is revised, including the consequences for violating the dress code. Consequences may never exceed District guidelines and must be enforced in a consistent manner.

To reference the CVUSD dress code regulations and protocols, students, parents/guardians, and district staff can view the District’s dress code policy and administrative regulations by accessing BP/AR 5132 – https://np.boarddocs.com/app/condoeva/student/Board.nsf/Public#.

**EDUCATIONAL EQUITY: IMMIGRATION AND CITIZENSHIP STATUS**

EC §66251, EC §66260.6, EC §66270, EC §66270.3, EC §200, EC §220 & EC §234.1 (adding Article 5.7 to EC 234.7)

**Eduational Equity**

The Equity in Higher Education Act, states that all persons, regardless of their disability, gender, gender identity, gender expression, nationality, race or ethnicity, religion, sexual orientation, or any other specified characteristic, are to be afforded equal rights and opportunities in the schools, and are not to be discriminated against on the basis of these specific characteristics in any program or activity conducted by the school that receives or benefits from state financial assistance or enrolls students who receive state financial aid. School officials are prohibited from collecting information from students regarding citizenship or immigration status of students or their family members. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying targeted at any student by anyone, based on the student’s actual or perceived race, color, national origin, nationality, immigration status, ethnicity, ethnic group identification, age, religion, marital or parental status, pregnancy, physical or mental disability, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or association with a person or group with one or more of these actual or perceived characteristics.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. (Education Code 48201)

When a student transfers from this district to another school district or to a private school, the Superintendent or designee shall forward a copy of the student's mandatory permanent record within 10 school days of the district's receipt of the request for the student's records. When a former student submits a state-issued driver's license, birth certificate, passport, social security card, court order, or other government-issued documentation demonstrating that the former student's legal name and/or gender has changed, the district shall update the former student's records to include the updated legal name and/or gender.

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

Any former student who submits a request to change the legal name and/or gender on the student's records but is unable to provide any government-issued documentation demonstrating the legal name or gender change, may request a name or gender change through the process described in Education Code 49070 and AR 51253.3 - Challenging Student Records. (Education Code 49062.5)

The District strongly encourages any students who feel that they are being or have been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult, or who have experienced off-campus sexual harassment that has a continuing effect on campus, to immediately contact their teacher, any school administrator, the principal as the Site Title IX
Coordinator, the District’s Title IX Coordinator, or any other available school employee. Students may also provide a confidential report through the District’s “Confidential Incident Reporting” form (http://bit.ly/CVUSDClondentalReport). Any employee who receives a report or observes an incident of sexual harassment shall not disclose the name of the District employee who received the report.

Once notified, the Title IX Coordinator who receives said report shall ensure the complaint is addressed through Title IX complaint procedures or uniform complaint procedures, as applicable, and shall offer supportive measures to the complainant. The Superintendent or designee shall inform students and parents/guardians of the District’s sexual harassment policy by disseminating parent/guardian notifications, publishing it on the District’s website, and including it in student and staff handbooks. All district staff shall be trained regarding the policy.

Instruction/Information

The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment; including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained
4. A clear message that student safety is the District’s primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. A clear message that, regardless of a complainant’s noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the complainant, respondent, or victim of the harassment, shall be investigated and prompt action shall be taken to stop any harassment, prevent recurrence, and address any continuing effect on students

Information about the District’s procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made

7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues

8. A clear message that, when needed, the District will implement supportive measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation

Sexual harassment complaints by and against students shall be investigated and resolved in accordance with law and District procedures specified in AR 1312.3 - Uniform Complaint Procedures. Principals are responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures.

Disciplinary Actions

Upon completion of an investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violence in violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in a sexual harassment or sexual violence toward any student shall be subject to disciplinary action, up to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

Record-Keeping

STUDENT ACCEPTABLE USE OF TECHNOLOGY POLICY

EC §49800(h), EC §51870.5 & CVUSD Board Policy 6163.4

Electronic Communication Acceptable Use

Electronic communication provides access to vast and diverse resources. Through Local Area Networks (LANs), Wide Area Networks (WAN), and the Internet, staff and students have access to individuals, groups, data, and materials from all over the world. Appropriate access to these resources is consistent with the District’s goal of promoting educational excellence. It is understood that much of the material available through electronic communication has no direct educational value for students, and such material is not suitable for all students. It is also understood that the District cannot control the content of the materials on a global network, nor can it fully protect students who misuse District resources to electronically access materials.

1. Access to a District LAN, WAN, or the Internet is a privilege, not a right.
2. To assure the appropriate use of District resources for electronic communication, the following requirements shall apply to all District staff and students.
3. All use must be in support of the educational mission, goals, objectives, and/or curriculum grade level content standards adopted by the Board of Education.
4. All use must be consistent with the rules of any network being accessed.
5. Unauthorized use of copyrighted materials is prohibited.
6. Distribution of material protected by trade secret is prohibited.
7. Threatening or obscene material is prohibited.
8. Use for commercial activities is prohibited.
9. Use for product advertisement or political lobbying is prohibited.
10. All staff and students using the District LAN, WAN, or Internet access shall sign an Acceptable Use Agreement acknowledging their agreement to abide by this Policy and any related regulations.
11. Any violation of this policy is subject to appropriate disciplinary action, which may include loss of access, the full range of disciplinary consequences allowed by the Education Code, and criminal prosecution.

Electronic Signaling Devices

EC 48901.5 & CVUSD Board Policy 5131

The Board of education acknowledges that there are legitimate reasons for students to possess and use electronic devices such as cellular phones, and pagers while going to and from school, and before and after school related activities. However, electronic devices will not be permitted to disrupt instruction, instructional programs, and/or school related activities nor to use a device to infringe upon the privacy rights of others. Therefore:

a. Electronic devices shall be turned off in class, except when being used for a valid instructional or other school-related purpose as determined by the teacher or other district employee, and any other time directed by a district employee.

b. Any device with camera, video, or voice recording function shall not be used in any manner which infringes on the privacy rights of any other person.

c. No student shall be prohibited from possessing or using an electronic device that is determined by a licensed physician or surgeon to be essential for the student’s health and is limited to purposes related to the student’s health. (EC 48901.5)

d. The District assumes no responsibility for the protection, loss, or damage to any electronic device.

Internet Safety and Cyber-bullying

A national concern is the harmful, inappropriate use of the Internet by students. “Cyber-bullying” is one of those misuses which includes the transmission of communications by posting of harassing messages, direct threats, social cruelty, or other harmful texts, sounds, or images on the Internet, social networking sites, or other technologically-based communication device. It also includes breaking into another person’s electronic account and assuming that person’s identity in order to damage that person’s reputation or friendships.

While the district has and will continue to ensure the safety of each student and compliance with technology standards in student technology use, it is apparent that there is an ongoing development of more sophisticated means of accessing the Internet. Across the nation, there has been an increase in negative student behavior in the use of home computers to post messages to popular “chat room” or “message exchange” websites. These websites allow students to chat with others and to post statements that ordinarily would not be said in a face-to-face conversation, otherwise referred to as “cyber-bullying.” Unfortunately, some of these websites are being used by child predators, “cyber-bullies,” and con artists with the intent of harming others. In some cases, adults pose as youths and gain access to student chat rooms. Some of these contacts have led to tragedy as some students post personal information, such as addresses and telephone numbers that predators can use to locate students. Some students (most between the ages of 14-17) excessively use the anonymity of the Internet in order to participate in online bullying to threaten harm to others without witnessing the consequences. Students who are bullied online sometimes do not report these incidences for fear of being harmed further or being restricted from using the Internet. Therefore, it is recommended that you:

1. Discuss the potential danger of the Internet with your son or daughter.

2. Ask if they have an account with any website. If they are using such a site with your permission, review your child’s profile to ensure that no personal and identifiable information has been posted.

3. Establish rules and guidelines to ensure your child’s safety on the Internet. Examples of websites that provide helpful guidelines include:

Student Responsible Use Agreement for Using Technology in School

After reviewing the preceding guidelines and expectations for the Acceptable Use Policy (AUP) available at www.conejo.usd.org or in print by request, students and parents acknowledge the following by signing this agreement. As a CVUSD student, I understand that:

-
The Board recognizes that alternative dispute resolution (ADR) can, depending on the nature of the allegations, offer a process for resolving a complaint in a manner that is acceptable to all parties. An ADR process such as mediation may be offered to resolve complaints that involve more than one student and no adult. However, mediation is not to be offered or used to resolve a complaint involving sexual assault or where there is a reasonable risk that a party to the mediation would feel compelled to participate. The Superintendent or designee shall ensure that the use of ADR is consistent with state and federal laws and regulations.

The district shall protect all complainants from retaliation. In investigating complaints, the confidentiality of the parties involved shall be protected as required by law. As appropriate for any complaint, alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the Superintendent or designee shall keep confidential the identity of the complainant and/or the subject of the complaint if they are different from the complainant, as long as the integrity of the complaint process is maintained.

When an allegation that is not subject to the UCP is included in a UCP complaint, the district shall refer the non-UCP allegation to the appropriate staff or agency and shall investigate and, if appropriate, resolve the UCP-related allegation(s) through the district's UCP.

The Superintendent or designee shall provide training to district staff to ensure awareness and knowledge of current law and related requirements, including the steps and timelines specified in this policy and the accompanying administrative regulation.

The Superintendent or designee shall maintain a record of each complaint and subsequent related actions, including steps taken during the investigation and all information required for compliance with 5 CCR 4631 and 4633.

Non-UCP Complaints

The following complaints shall not be subject to the district's UCP but shall be investigated and resolved by the specified agency or through an alternative process:

1. Any complaint alleging child abuse or neglect shall be referred to the County Department of Social Services, the County Protective Services Division, and/or the appropriate law enforcement agency.
2. Any complaint alleging health and safety violations by a child development program shall, for licensed facilities, be referred to Department of Social Services. (5 CCR 4611)
3. Any complaint alleging employment discrimination or harassment shall be investigated and resolved by the district in accordance with the procedures specified in AR 4030 – Nondiscrimination in Employment, including the right to file the complaint with the California Department of Fair Employment and Housing.
4. Any complaint alleging a violation of a state or federal law or regulation related to special education, a settlement agreement related to the provision of a free appropriate public education, or a due process hearing order shall be submitted to the California Department of Education (CDE) in accordance with AR 6159.1 – Procedural Safeguards and Complaints for Special Education. (5 CCR 3200-3205)
5. Any complaint alleging noncompliance of the district's food service program with laws regarding meal counting and claiming, reimbursable meals, eligibility of children or adults, or use of cafeteria funds and allowable expenses shall be filed with or referred to CDE in accordance with BP 3555 – Nutrition Program Compliance (5 CCR 15580-15584)
6. Any allegation of discrimination based on race, color, national origin, sex, age, or disability in the district's food service program shall be filed with or referred to the US Department of Agriculture in accordance with BP 3555 – Nutrition Program Compliance (5 CCR 15582).
7. Any complaint related to sufficiency of textbooks or instructional materials, emergency or urgent facilities conditions that pose a threat to the health or safety of students or staff, or teacher vacancies and misassignments in accordance with AR 1312.4 – Williams Uniform Complaint Procedures. (Education Code 35186)

For more information on the UCP procedures or to inquire about the complaint process, please contact the Assistant Superintendent at (805) 497-9511 ext. 1201.
