## Administrative Regulation

AR 6112

### Instruction

#### School Day

#### Kindergarten

\*\*\*Note: Education Code 46117 establishes a minimum school day of 180 minutes for kindergarten students as provided below. However, pursuant to Education Code 46119, if a district has less than a total of 40 kindergarten students, the Board may apply to the Superintendent of Public Instruction to maintain two kindergarten classes of 150 minutes each, including recesses, on the same day and taught by the same teacher.\*\*\*

The minimum school day for kindergarten students shall be 180 minutes, including recesses but excluding noon intermissions. (Education Code 46115, 46117)

\*\*\*Note: In determining the maximum school day for kindergarten students, Education Code 46111 provides that recess time shall be excluded as described below. However, it is the interpretation of the California Department of Education that recess time may be counted as instructional minutes, at the district's discretion, if teacher supervision occurs.\*\*\*

The maximum school day for kindergarten students shall be four hours (240 minutes), excluding recesses. (Education Code 46111)

The maximum school day for kindergarten students may be longer than four hours under the following circumstances:

1. The maximum school day for multitrack year-round schools operating pursuant to Education Code 37670(a) shall be 265 minutes excluding recesses. (Education Code 46111)

\*\*\*Note: Optional item #2 below is for use by districts that have established an extended day kindergarten program pursuant to Education Code 8970-8974 in order to provide an integrated, experiential, and developmentally appropriate educational program with specified components for students in prekindergarten through grade 3. Education Code 8973 provides that the kindergarten school day in such programs may exceed four hours under the conditions described below, although districts do not receive additional apportionment funds. \*\*\*

2. The kindergarten school day may exceed four hours, excluding recess, if the district has established an early primary program pursuant to Education Code 8970-8974 and meets both of the following conditions: (Education Code 8973)

- a. The Governing Board declares that the extended-day kindergarten program does not exceed the length of the primary school day.
- b. The extended-day kindergarten program includes ample opportunity for both active and quiet activities within an integrated, experiential, and developmentally appropriate educational program.

### Elementary Schools

The minimum school day for students in elementary schools shall be:

1. 230 minutes for students in grades 1-3 (Education Code 46112)
2. 240 minutes for students in grades 4-8 (Education Code 46113)

For students in grades 1-8, the minimum school day excludes both noon intermissions and recesses. (Education Code 46115)

The above minimum days do not apply to situations in grades 1-3 in which the Board has prescribed a shorter school day because of lack of school facilities requiring double sessions. (Education Code 46112, 46113)

### Secondary Schools

The minimum school day for junior high and high school students shall be 240 minutes unless otherwise provided by law. (Education Code 46141-46147)

The minimum school day shall be 180 minutes for students enrolled in a continuation high school, continuation education classes, opportunity school or classes, adult education classes, special day or Saturday vocational training program, or specified work experience program. (Education Code 46144, 46170, 46180, 46190)

(cf. 6178.1 - Work Experience Education)

(cf. 6184 - Continuation Education)

(cf. 6200 - Adult Education)

### Alternative Block Schedule for Junior High and High Schools

\*\*\*Note: Education Code 46160-46162 authorize the Board to create a block schedule in any junior high or high school whereby students would attend school for less than the total number of days that school is in session, provided that they attend a minimum number of minutes per five-day period. In order to accommodate career technical education, regional occupational centers and programs, or other alternative schedules, AB 2448 (Ch. 572, Statutes of 2006) amended Education Code 46160 to authorize a district to create a similar schedule based on a 10-day period, as specified below.\*\*\*

The Board may authorize any student to attend fewer school days in any district junior high or high school as long as the student attends classes for at least 1,200 minutes during any five school day period or 2,400 minutes during any 10 school day period to accommodate career technical education, regional occupational center and program courses, or block or other alternative school class schedules. (Education Code 46160)

(cf. 6178 - Career Technical Education)

(cf. 6181- Alternative Schools)

Prior to implementing the block schedule program in which students attend class for fewer school days, the Board shall consult in good faith in an effort to reach agreement with the certificated and classified employees of the school, with the parents/guardians of the students who would be affected by the change, and with the community at large. Such consultation shall include at least one public hearing for which the Board has given adequate notice to the employees and to the parents/guardians of affected students. (Education Code 46162)

(cf. 9320 - Meetings and Notices)
