Board Policy

BP 5131.2

Bullying

Students

Note: In its October 2010 Dear Colleague Letter: Harassment and Bullying, the U.S. Department of Education Office for Civil Rights (OCR) clarified that misconduct that falls under a district's general anti-bullying policy may also trigger responsibilities under one or more federal antidiscrimination laws if the bullying is on the basis of race, color, national origin, sex, sexual orientation, gender identity or expression, age, disability, and/or other legally protected category. If so, federal law requires the district to investigate or otherwise determine what occurred and, if it finds that unlawful discrimination did occur, take prompt and effective steps reasonably calculated to end the discrimination, eliminate any hostile environment and its effects, and prevent the discrimination from recurring.

***Note: Thus, while this policy is intended to prevent and address all types of bullying incidents among students, school officials need to know that when "discriminatory bullying" is committed (i.e., discrimination based on the actual or perceived status of the alleged victim which is protected by law, such as race, sex, sexual orientation, gender identity or expression, religion, age, or disability), and the bullying is sufficiently serious to create a hostile educational environment for the alleged victim or to otherwise deny or limit his/her educational benefits and services, including denial of a free appropriate public education, the alleged victim must be afforded the protections specified under relevant state and/or federal law.

The Governing Board recognizes the harmful effects of bullying on student learning and school attendance and desires to provide safe school environments that protect students from physical and emotional harm. District employees shall establish student safety as a high priority and shall not tolerate bullying of any student.

No student or group of students shall, through physical, written, verbal, or other means, harass, sexually harass, threaten, intimidate cyberbully, cause bodily injury to, or commit hate violence against any other student or school personnel.

(cf. 5131 - Conduct)

(cf. 5136 - Gangs)

(cf. 5145.3 - Nondiscrimination/Harassment)

(cf. 5145.7 - Sexual Harassment)

(cf. 5145.9 - Hate-Motivated Behavior)

Cyberbullying includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to

damage that person's reputation.

(cf. 5145.2 - Freedom of Speech/Expression)

Strategies for bullying prevention and intervention shall be developed with involvement of key stakeholders in accordance with law, Board policy, and administrative regulation governing the development of comprehensive safety plans and shall be incorporated into such plans.

(cf. 0420 - School Plans/Site Councils)

(cf. 0450 - Comprehensive Safety Plan)

(cf. 1220 - Citizen Advisory Committees)

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)

(cf. 6020 - Parent Involvement)

Bullying Prevention

To the extent possible, district and school strategies shall focus on prevention of bullying by establishing clear rules for student conduct and strategies to establish a positive, collaborative school climate. Students shall be informed, through student handbooks and other appropriate means, of district and school rules related to bullying, mechanisms available for reporting incidents or threats, and the consequences for perpetrators of bullying.

(cf. 5137 - Positive School Climate)

(cf. 6164.2 - Guidance/Counseling Services)

The district may provide students with instruction, in the classroom or other educational settings, that promotes effective communication and conflict resolution skills, social skills, character/values education, respect for cultural and individual differences, self-esteem development, assertiveness skills, and appropriate online behavior.

(cf. 6163.4 - Student Use of Technology)

(cf. 6142.8 - Comprehensive Health Education)

(cf. 6142.94 - History-Social Science Instruction)

School staff shall receive related professional development, including information about early warning signs of harassing/intimidating behaviors and effective prevention and intervention strategies.

(cf. 4131 - Staff Development)

(cf. 4231 - Staff Development)

(cf. 4331 - Staff Development)

Based on an assessment of bullying incidents at school, the Superintendent or designee may increase supervision and security in areas where bullying most often occurs, such as classrooms, playgrounds, hallways, restrooms, cafeterias.

Intervention

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. In addition, the Superintendent or designee shall develop means for students to report threats or incidents confidentially and anonymously.

School staff who witness bullying shall immediately intervene to stop the incident when it is safe to do so. (Education Code 234.1)

As appropriate, the Superintendent or designee shall notify the parents/guardians of victims and perpetrators. He/she also may involve school counselors, mental health counselors, and/or law enforcement.

The Superintendent, principal, or principal's designee may refer a victim, witness, perpetrator, or other student affected by an act of bullying to a school counselor, school psychologist, social worker, child welfare attendance personnel, school nurse, or other school support service personnel for case management, counseling, and/or participation in a restorative justice program as appropriate. (Education Code 48900.9)

Complaints and Investigation

Any student, parent/guardian, or other individual who believes that a student has been subjected to bullying or who has witnessed bullying may report the incident to a teacher, the principal, a compliance officer, or any other available school employee. Within one business day of receiving such a report, a staff member shall notify the principal of the report, whether or not a uniform complaint is filed. In addition, any school employee who observes an incident of bullying involving a student shall, within one business day, report his/her observation to the principal or a district compliance officer, whether or not the alleged victim files a complaint.

Within two business days of receiving a report of bullying based on discrimination, the principal shall notify the district compliance officer identified in AR 1312.3 - Uniform Complaint Procedures.

(cf. 1312.3 - Uniform Complaint Procedures)

Note: Districts have the authority to monitor student use of the district's Internet system and to conduct individual searches of student accounts if there is reasonable suspicion that a user has violated district policy or the law; see BP/AR 5145.12 - Search and Seizure .

When a report of bullying is submitted, the principal or a district compliance officer shall inform the student or parent/guardian of the right to file a formal written complaint in accordance with AR 1312.3. The student who is the alleged victim of the bullying shall be given an opportunity to describe the incident, identify witnesses who may have relevant information, and provide other evidence of bullying.

Investigation and Resolution of Complaints

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved

in accordance with law and the district's uniform complaint procedures specified in AR 1312.3.

If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

Note: As noted in the section "Discipline" below, the courts have generally upheld a district's authority to discipline a student for off-campus conduct when the conduct causes, or is foreseeably likely to cause, a substantial disruption of school activities. Thus, in complaints regarding off-campus conduct, districts should document, with specific examples, how the conduct or speech significantly disrupted or was likely to significantly disrupt school activities and the targeted student's educational performance.

Note: Consistent with these interpretations, Education Code 48900 defines bullying by means of an electronic act to include creation or transmission originating on or off the school site. Thus, for purposes of determining whether the conduct may be subject to suspension or expulsion, the act does not necessarily need to have been committed while at school, while coming to or from school, or during a school-sponsored activity. Nevertheless, the act needs to satisfy the criteria specified in the definition of "bullying" in Education Code 48900 (i.e., a severe or pervasive physical or verbal act or conduct that has or can be reasonably predicted to have the effect of placing a reasonable student in fear of harm to his/her person or property, causing a substantially detrimental effect on his/her physical or mental health, causing substantial interference with his/her academic performance, or causing substantial interference with his/her ability to participate in or benefit from school services, activities, or privileges).

When a student is reported to be engaging in bullying off campus, the Superintendent or designee shall investigate and document the activity and shall identify specific facts or circumstances that explain the impact or potential impact on school activity, school attendance, or the targeted student's educational performance.

When the circumstances involve cyberbullying, individuals with information about the activity shall be encouraged to save and print any electronic or digital messages sent to them that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated.

If the student is using a social networking site or service that has terms of use that prohibit posting of harmful material, the Superintendent or designee also may file a complaint with the Internet site or service to have the material removed.

Discipline

Corrective actions for a student who commits an act of bullying of any type may include counseling, behavioral intervention and education, and, if the behavior is severe or pervasive as defined in Education Code 48900, may include suspension or expulsion in accordance with district policies and regulations.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.
