

ARMATUS® QUICK START GUIDE

Welcome aboard, Armatus® Users! Are you ready to learn? Remember, this is training—like a class—so you'll want to create an easy-to-learn-in environment. We have developed some helpful hints to ensure you retain this important information. Good luck and enjoy your courses!

1 Prepare

First, set the right conditions for learning. Create an environment with no interruptions, no phone calls, and no distractions—simple as that. Please set aside 30-to-45 minutes for each course so you don't have to hurry. It's important not to rush. Remember, the course will teach you how you can keep kids in your care safe, so prepare to concentrate.

2 Take your Time

Second, have patience and enjoy your learning experience. Plan to complete only one or two courses per day so that you can easily remember the information. Complete the course from beginning to end. If you stop a course, you'll have to completely re-start it.

3 Follow the Orange Arrows

Third, when it's time to move to the next page, an orange arrow will appear. Click the orange arrow to move forward. Do not use your Internet browser's forward and back arrows or refresh buttons, or you'll find yourself back at the beginning of the course!

4 Think About It

Lastly, pause and think. Throughout the course, think about how you can apply what you are learning to your own position. When you pass the quiz at the end of the course, you'll earn credit. This information will teach you how you can keep kids in your care safe! We know that with proper concentration you can understand and retain this important information.
