

Using Technology in School AUP - Grades 6-8

The Conejo Valley Unified School District (CVUSD) provides a wide range of technology resources for student use. These technology resources are to be used only for educational purposes. This agreement outlines appropriate use and prohibited activities when using all technology resources and electronic devices as defined by school administrators. Every student is expected to follow all of the rules and conditions listed, as well as those given verbally by CVUSD teachers (including substitutes), administrators, and other school staff, and to demonstrate good citizenship and ethical behavior at all times.

The Conejo Valley Unified School District uses a filtering system to track and monitor all computer and Internet use on the District's network. The system is designed to prevent access to educationally inappropriate sites. CVUSD educators can request that a specific site be blocked or unblocked by contacting the Technology Services Help Desk.

It is important to understand that no filtering system is perfect. Due to the nature of the Internet and evolving technology, even with supervision, we cannot guarantee that students will not reach an inappropriate site. It is the student's responsibility to report any inappropriate site to the teacher.

Below are examples, but not an exhaustive list, of online conduct that may constitute a violation of federal and/or state criminal laws relating to cyber-crimes:

Criminal Acts: These include, but are not limited to, "hacking" or attempting to access computer systems without authorization, threatening/harassing email, cyber-stalking, various explicit content, vandalism, unauthorized tampering with computer systems, using misleading domain names, using another person's identity and/or identity fraud.

Libel Laws: Publicly defaming people through publishing material on the Internet, email, etc

Copyright Violations: Copying, selling or distributing copyrighted material without the express written permission of the author or publisher (users should assume that all materials available on the Internet are protected by copyright), engaging in plagiarism (using other's words or ideas as your own).
