CVUSD Information Letter Regarding Math 7CP to Algebra 1CP Boost Exam & Camp

Dear Parent/Guardian,

All 7th Grade CVUSD students qualify to participate in the Math 7CP to Algebra 1CP Boost Exam.

In spring of 2015, the Conejo Valley Unified School District (CVUSD) aligned the math courses of study and math pathways to the California State Standards. The standards realigned concepts within the overall mathematics progression for our state. Our teachers have worked diligently to ensure that our students have the opportunity to transition to the new standards without allowing gaps in their learning. These pathways will allow your student opportunities to achieve the highest levels of math in high school and beyond.

The CVUSD math pathway displayed on the back of this letter delineates the CVUSD Math Pathway for the 2020-2021 school year. These state standard pathways do not allow students to go from Math 7CP to Algebra 1CP directly. **In order to advance from Math 7CP to Algebra 1CP, students must complete the Math 7CP to Algebra 1CP Boost Exam with a score of 70% or higher.**

Boost Exam:

- **Eligibility:** All students taking Math 7CP can take the Math 7CP to Algebra 1CP Boost Exam.
- **Description:** Students seeking to boost from Math 7CP to Algebra 1CP will be skipping **one full year** of the 8th Grade Math Standards. The District's boost exam will test those concepts and standards from the entire Math 8CP course. Study guides covering this material are available for students to study prior to the exam dates. Students who wish to take the Boost Exam must register at the link below.
- **Registration:** Any student can register at this link (<http://bit.ly/CVMathPlacement>) for the Math 7CP to Algebra 1CP Boost Exam. The Boost Exams will take place at your child's middle school between August 5 and 6, depending on health and safety guidelines related to COVID-19 at that time. In the case that health guidelines prohibit an in-person examination, information about an alternative exam will be provided to parents/guardians. **Registration must be completed by May 18, 2020**
- **Required Score:** The prerequisite for students to move from Math 7CP to Algebra 1CP is passing the Boost Exam with a **70% score** or higher.

Boost Camp:

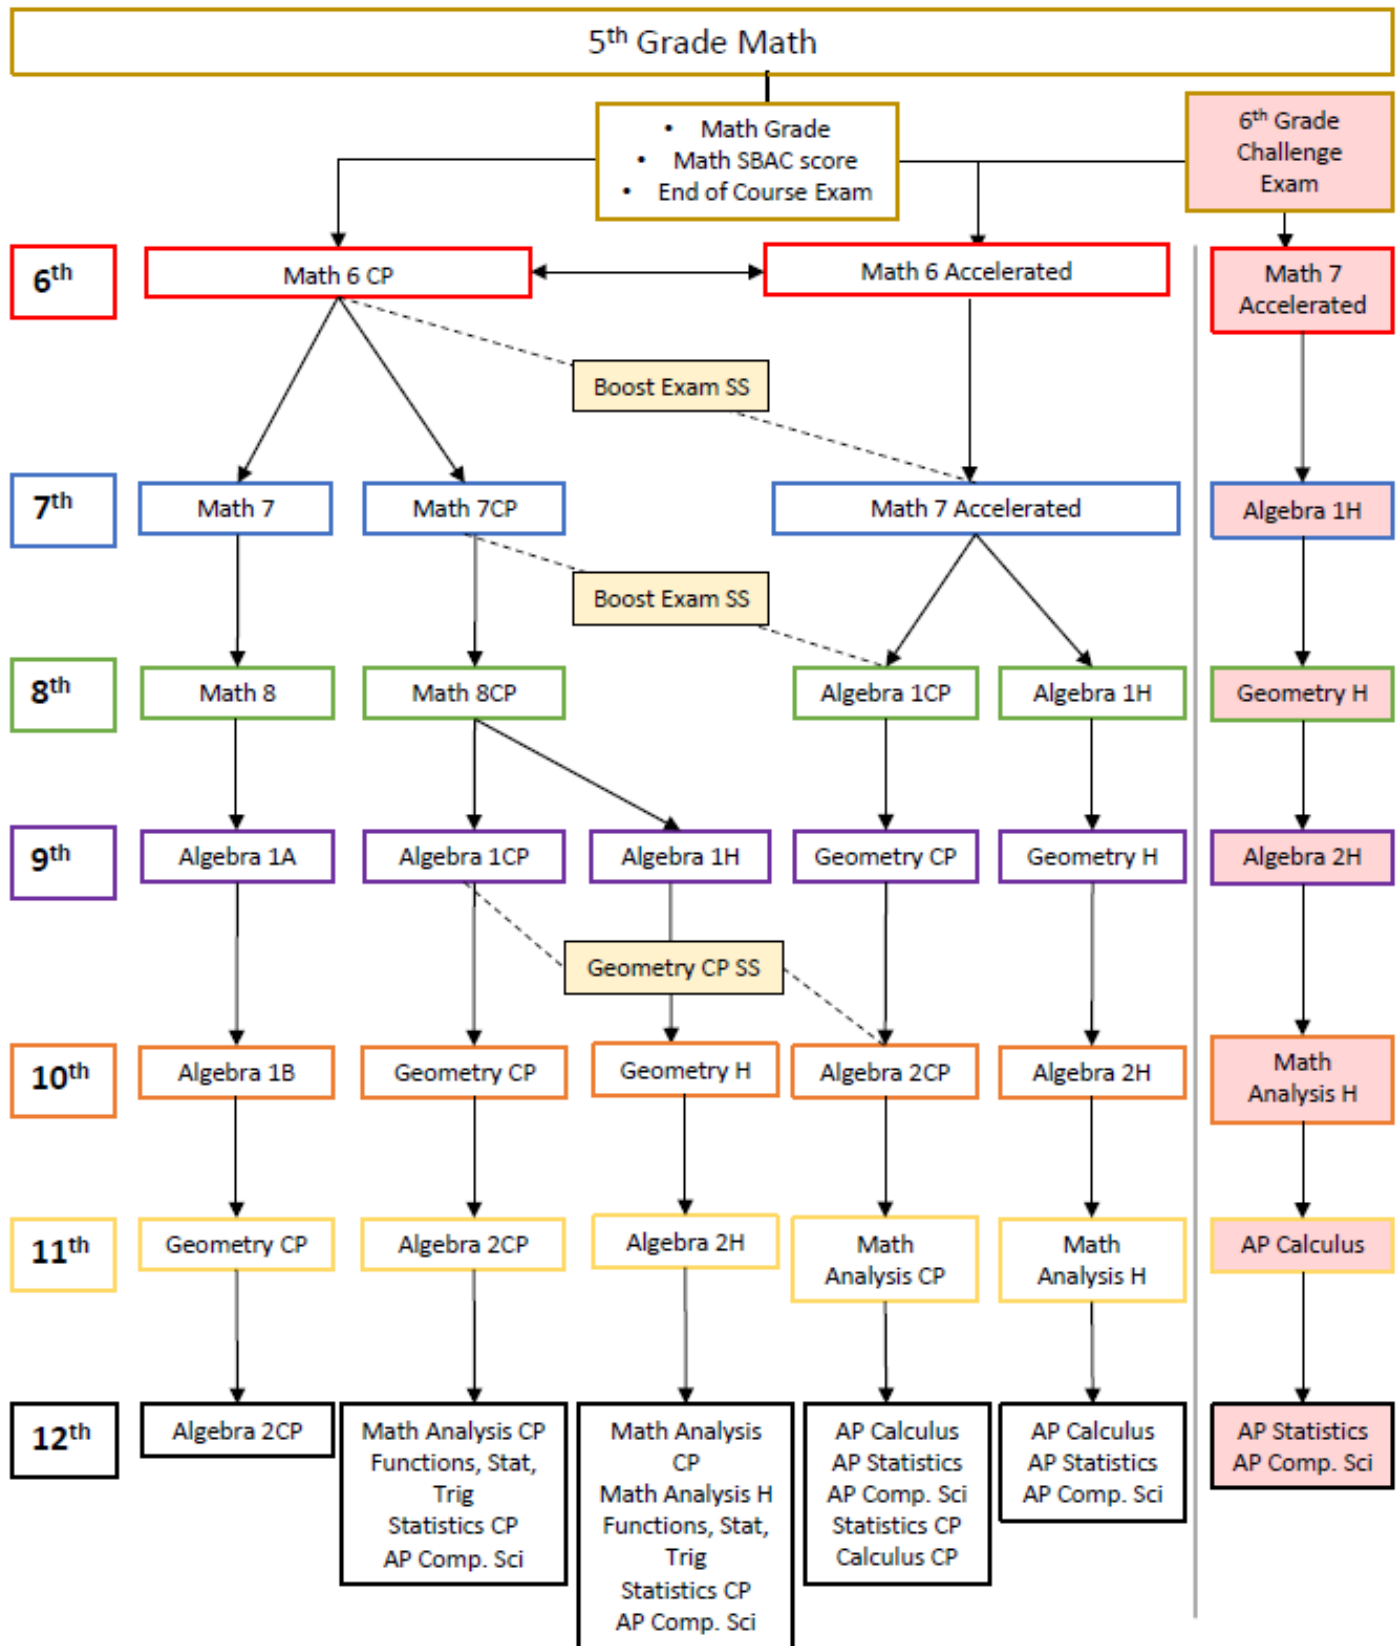

- **Eligibility:** Students currently taking Math 7CP who earned either all A's, or one A and one B during Trimester 1 and Trimester 2 can participate in the district's Boost Camp. A student who takes Boost Camp still must pass the Math 7CP to Algebra 1CP Boost Exam with a 70% or higher to be placed into Algebra 1CP.
- **Description:** Boost Camp is a cost-free online summer school opportunity from June 17 to July 2, 2020 that provides the additional skills necessary for Algebra 1CP.
- **Registration:** Eligible students must register at this link (<http://bit.ly/CVMathPlacement>) for the Math 7CP to Algebra 1CP Boost Camp. These students **still must take the Boost Exam on August 5 or 6, 2020. Registration must be completed by May 18, 2020**
- **Required Score:** The prerequisite for students to move from Math 7CP to Algebra 1CP is passing the Boost Exam with a **70% score** or higher.

If you have any questions or need further information, please contact the assistant principal at your child's middle school.

Sincerely,
Kenny Loo
Director, Middle Schools and Professional Learning

Math Flow Chart Grades 5-12

This flow chart is designed to guide students along common academic pathways. The paths shown are typical routes taken by students. Transferring between paths is possible from year to year based on student performance, teacher recommendation and counselor review. In our school district we strongly believe four (4) years of high school math is a good predictor of success in college.
