Frequently Asked Questions

How do I return a warehouse item for credit?

Warehouse stock may be returned to the warehouse for credit. Returns for credit must be requested WITHIN 10 days after receipt at your site.

1. Write **“RETURN FOR CREDIT”** and do one of the following:
Include a copy of the original requisition or packing list, circle the item(s) that you are requesting credit for.
Or
On a Warehouse Requisition Form # 91-80001, list the items being returned and reference the warehouse requisition number on which each item was originally ordered.

A warehouse “Return for Credit” requisition referencing the original warehouse requisition number and/or a copy of picking list must accompany items being returned.

2. Call the warehouse and request that the items be picked up. The warehouse will issue a “pick-up” notice. Please keep the paperwork with items that are being returned, do not send paperwork in the in house mail or to accounting.
3. Upon receipt of the items, it will be verified that the stock is in acceptable condition. Items will be received back into warehouse stock via ESCAPE. Funds will be credited back to the account to which they were originally charged. A confirmation copy will be sent back to the requestor once it has been processed.

What do I do if my shipment is incorrect?

When your requisition of warehouse stock is received at your school/site and it is felt that an item is short, over or missing, the discrepancy should be reported to the warehouse staff within TWO (2) working days of the delivery. Shortages reported beyond the TWO (2) days may not be considered for replacement.

What if I have not received my entire order?

Occasionally, requisitions are lost in the system/mail or possibly a mix up in the delivery site. If, after 10 days, you still have not received your delivery, please contact the warehouse staff for follow-up.

PRINTING SERVICES offers the following binding options

Saddle Stitch Binding

Despite what the name implies, there are no "stitches" in saddle stitch binding. Rather, saddle stitched books are designed in increments of four pages (see fig. A), created from single sheets of paper that are typically printed on both sides and then folded in half and stapled on the fold. (see pic below) It is an ideal option and a popular choice where an inexpensive, yet professional look is desired. It's tough to stitch through more than about 25 sheets or so, thus you are limited to a 100 page folded booklet, less if heavier paper or cover is used.

Available with or without square fold & trim

As an add on option to the above, we offer square folding. This method gives a professional finished look as it adds a flat binding edge to a saddle stitched booklet. It aids a thicker booklet with closing, keeping it from "puffing" open.

When requesting either saddle stitch or saddle stitch with square fold, keep in mind they are printed in increments of 4 pages. For example, if your document has 22 pages you will need to subtract 2 pages or add 2 pages. Often times our customers may choose to leave the inside of the front & back covers blank.

Comb

Plastic Comb Binding

Comb spines allow pages to lie flat for note taking and photocopying. With the use of a machine to open the spine you have the ability to add or remove pages. We have a variety of sizes available to bind documents from 10 to 425 sheets.
