** Forms are in the CCC (D2) or: <https://www.conejousd.org/site/Default.aspx?PageID=1711>

13 Steps to Success

Resume Tips

- Build your resume now and keep it updated.
- You do NOT need work experience to start your resume.
- Many activities that you do in school or during your free time may be included on your resume – including TOHS Majors!
- A resume will give others a professional impression of you; this will increase your chance of landing the internship or job that you desire.
- Go online for examples of resumes and cover letters.

Step 1: Reflect on experiences, skills, and activities to build your resume.

Step 2: Get resume feedback from Career Education staff and other adults.

Step 3: Customize your resume to help land a specific internship or job.

Step 4: Talk to other Majors students, your Majors advisor, teachers, family and Career Education staff to learn about people you can contact for internship opportunities in the career field that interests you. Go online to learn more about local businesses/organizations that interest you. Please note that private residences are not allowed for Internship and/or Job Shadow locations.

Step 5: Phone, email, and/or visit potential organizations/businesses in-person with your resume. Be sure to mention that you are a student in TOHS Majors. Please note that it is the responsibility of the student/parent(s) to fully vet and secure any Internship and/or Job Shadow.

To make a good impression:

- Dress professionally.
- Introduce yourself with a handshake, a smile, and eye contact.
- Show that you are enthusiastic, interested, and responsible.

Neatly complete any requested internship/job application and; if possible, attach your resume to it. If you desire to go above and beyond, also attach a cover letter.

Step 6: Be persistent! Re-contact potential internship locations to let them know you are enthused about an opportunity.

Step 7: Once you secure an internship, come to the CCC or visit the TOHS Majors website: <https://www.conejousd.org/site/Default.aspx?PageID=1711> (navigate to the Internship section) to print the *Contract and Learning Plan* for you and your internship supervisor to complete.

Step 8: Return the *Contract & Learning Plan* to the CCC (D2) at the START of your internship.

Step 9: Always arrive on time or early, ready to learn and help. After 15 hours, ask your supervisor to complete the *Internship Progress & Evaluation* form to receive feedback about how you are doing.

Step 10: Log a minimum of 30 hours on the *Internship Timesheet* and have your supervisor sign it. Also, ask your internship supervisor to complete a second *Internship Progress & Evaluation form*.

Step 11: Reflect on your internship experiences and complete your internship essay.

Step 12: Turn your *Internship Timesheet*, both *Internship Progress & Evaluation* forms, and your Internship Reflection Essay into Mr. Harris in the CCC (D2) by May 1 of your senior year.

Step 13: Write a thank you letter or note to your internship supervisor!
