

About Us

"We believe in guiding students to become productive members of a changing global world and to reach towards their aspirations."

Our standards-based, comprehensive program embeds the Primary Years Program of the International Baccalaureate and balances units of inquiry and single subject teaching.

Our Values

Our school values and supports learners in becoming skillful communicators, problem solvers, and socially conscious citizens who believe themselves to be capable and able to mold their future as they reflect on their personal accomplishments and direct their own thinking.

Who We Are

As of January 2023, Cypress Elementary is officially an authorized International Baccalaureate Primary Years Programme School!

An International Baccalaureate program prepares students to be active participants in a lifelong journey of learning. This program challenges students both academically and personally. It encompasses the WHOLE CHILD.

We proudly serve scholars in grades TK-5 on our beautiful campus.

What is the Primary Years Programme?

01. The PYP is founded on a philosophy that recognizes a child's natural curiosity, creativity and ability to reflect, the PYP generates a stimulating, challenging learning environment to nurture those assets and foster a lifelong love of learning in every child.

02. The PYP is transdisciplinary, meaning students learn across subject areas.

IB teaching methods and curriculums are research-based and draw from the best educational practices from systems around the world.

03.

04. IB students develop a sense of the world around them and their responsibility to it.

Our teachers receive professional development in IB's approaches to teaching and approaches to learning from certified IB workshop leaders.

05.
