

## CSU-UC Comparison of Minimum Freshman Admission Requirements

	California State University (CSU)	University of California (UC)
<b>SUBJECT REQUIREMENTS</b>		
	<b>15 year-long/30 semester college preparatory A-G courses are required with letter grades of C or better#:</b>	
		11 UC-required college-preparatory courses must be completed prior to senior year (including summer courses)
<b>A   History/Social Science</b>	<b>2 years/4 semesters of history/social science, including one year of U.S. history OR one semester of U.S. history and one semester of American government, AND</b>	
	1 year of history/social science from either the A or G subject area	1 year of world history, cultures, or historical geography (including European History) from the A subject area.
<b>B   English</b>	<b>4 years/8 semesters of college preparatory English composition/literature (including no more than 1 year of Advanced ESL/ELD):</b>	
	Advanced ESL may be substituted for the first year of the 4 years of English.	The ESL/ELD cannot be completed during the senior year
<b>C   Mathematics</b>	<b>3 years/6 semesters of mathematics (including or integrating topics covered in algebra I and II, geometry)*</b> (Integrated math sequences may be used to satisfy the C Mathematics requirement.)	
	Students applying to CSU and UC must complete a geometry course (or integrated math courses with geometry content).	
<b>D   Science</b>	<b>2 years/4 semesters of science</b>	
	At least 1 year of physical science and 1 year of biological science, one year must be from the D subject area and the second year may be from the D or G area**  <b>Integrated/Interdisciplinary courses may be used to fulfill either physical or biological science.</b>	Must include at least two of the three foundational subjects of biology, chemistry, and physics (including Biology/Earth & Space Sciences, Chemistry/ Earth & Space Sciences, and Physics/Earth & Space Sciences as part of the Next Generation Science Standards [NGSS] models); <b>or</b> two years of a three-year NGSS integrated science model; <b>or</b> one year of biology, chemistry or physics <b>and</b> one year of an approved science chosen from the earth & space sciences or interdisciplinary sciences disciplines. <i>Approved courses in the applied science, computer science, and engineering disciplines may only be used for a 3<sup>rd</sup> year (or beyond) of the science requirement.</i> Courses must be from the D subject area.
<b>E   Language Other Than English</b>	<b>2 years/4 semesters (or equivalent to the 2<sup>nd</sup> level of high school instruction) of a language other than English*</b> (Courses must be in the same language, American Sign Language allowed)	
<b>F   Visual and Performing Arts</b>	<b>1 year/2 semesters (or two one-semester courses in the same discipline) required, chosen from the following disciplines:</b> Dance, Music, Theater, Visual Arts or Interdisciplinary Arts	
<b>G   College Preparatory Elective</b>	<b>1 year/2 semesters of elective course work chosen from any area on approved A-G course list</b>	
<b>REPEATED COURSES</b>		
	<b>California State University (CSU)</b>	<b>University of California (UC)</b>
	<b>CSU and UC do not use plus/minus grades in the GPA calculation; for example, a C- = C.</b>	
	Required A-G courses must be completed with a grade of C or better. Any course may be repeated with the exact same course. There is no limitation on the number of times a course can be repeated.	Required A-G courses must be completed with a letter grade of C or better#. Courses with D/F grades may be repeated. There is no limitation on the number of times a course can be repeated. Repeated courses can have the same or similarly named course titles (e.g. English 9 or English 1). The first instance of a letter grade C or better will be used in the GPA calculation.

# Pass/Credit grades allowed for A-G coursework completed in winter/spring/summer 2020.

\* High school-level coursework completed in 7th and/or 8th grade can be used to meet the area C and/or E requirements.

\*\* It is best to prepare for both UC and the CSU by completing two laboratory courses from the D subject area.

Information is accurate as of August 2020

## CSU-UC Comparison of Minimum Freshman Admission Requirements

	California State University (CSU)	University of California (UC)
<b>VALIDATION OF SUBJECT OMISSION BY OTHER COURSES</b>		
Mathematics	A letter grade of C or better in the second semester of Geometry will validate the first semester. A letter grade of C or better in the first semester of Algebra II validates both semesters of Algebra I. A letter grade of C or better in Statistics will validate Algebra I and Algebra II, but will not validate Geometry.	
	Integrated style Math 2 will be accepted in lieu of a Geometry course.	
	A letter grade of C or better in the second semester of an area C course with a discipline of Advanced Mathematics on the <a href="#">A-G website</a> validates the entire high school college preparatory requirement.	The omission of a full year of geometry <b>cannot</b> be validated by any higher-level coursework.
	A letter grade of C or better in Integrated style Math 3 which includes geometry content validates the omission of Integrated style Math 2.	A letter grade of C or better in Integrated style Math 3 which includes geometry content validates the omission of Integrated style Math 2. Refer to UC's Validation Matrix in <a href="#">Quick Reference Guide to UC Admissions</a> .
Language Other than English (LOTE)	A letter grade of C or better in a semester of a higher-level course validates a lower-level course. A higher-level LOTE course can validate the appropriate number of years based on the level. A college course can validate high school LOTE courses. The level of validation depends on the college course prerequisite and description. For courses offered at a California Community College refer to <a href="#">ASSIST</a> and look for the footnote indicating the course is equivalent to two years of high school instruction.	
Chemistry	A grade of C or better in the second semester of Chemistry <u>will</u> validate the first semester.	UC does not allow validation of Chemistry.
<b>VALIDATION OF DEFICIENT (D/F) GRADES IN REQUIRED COURSES</b>		
	Courses in which grades of D/F are earned may be validated in the areas of Math and Language Other Than English (LOTE) by successful completion of higher-level coursework, including D/F grades in Geometry. For UC, refer to the Validation Matrices in <a href="#">Quick Reference Guide to UC Admissions</a> . CSU also allows the validation of D/F grades in Chemistry.	
<b>VALIDATION OF SUBJECT REQUIREMENTS BY TEST SCORES</b>		
	Required A-G courses may be satisfied with appropriate test scores on SAT, SAT Subject Tests, Advanced Placement exams, and designated International Baccalaureate exams. A list of acceptable tests and scores is available on the CSU website; for UC, refer to <a href="#">Quick Reference Guide to UC Admissions</a> . For UC, the omission of a course in Geometry cannot be validated by any examination score.	
<b>HIGH SCHOOL GPA</b>		
	Calculate GPA using all A-G approved courses completed during the summer after the 9th grade through summer after the 11th grade---excluding deficient grades which have been repeated. <b>CSU and UC do not use plus/minus grades in the GPA calculation; for example, a C- = C.</b>	
	Repeated courses are calculated once using the highest grade earned. When completing the online admission application, the repeated course is also only reported once using the highest grade earned.	Repeated courses are calculated once using the first instance of a letter grade of C, B, or A. UC does <b>not</b> average grades. <b>However, when completing the UC admission application, all A-G courses and grades must be reported.</b>
<b>HONORS POINTS</b>		
	Maximum of 8 extra grade points (honors points) from four year-long courses (8 semesters) awarded for UC-approved high school created honors, all AP, some IB courses and transferable college courses. No more than two year-long courses (4 semesters) completed in 10 <sup>th</sup> grade can be used in the honors points calculation.	
<b>TEST SCORES – ACT/SAT</b>		
ACT or SAT	Applicants to CSU are not required to submit ACT or SAT scores. The CSU will temporarily suspend the use of ACT/SAT examinations in determining admission eligibility for all CSU campuses for the 2021-2022 academic year. Student will not be penalized if they choose not to submit scores.	Applicants to UC are not required to submit ACT or SAT scores. Students who choose to submit scores will report the scores in their application no later than December 31. Students will not be penalized in the application review process if they choose not to submit scores. Students are no longer required to take the SAT Essay or ACT Writing Test. Some campuses may <a href="#">recommend SAT Subject Tests for specific majors</a> .
